## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the reference character(s) and needed to remove headlines after the figure numbers. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

The disclosure is objected to because of the following informalities: The applicant is advised to remove all the underlines.

Appropriate correction is required.

The abstract of the disclosure is objected to because the following informalities: The applicant is advised to remove all the underlines and an extra "." on line 3. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

Claims 1-4 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

As best understood, claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith (US 3,308,593).

Smith teaches a flexible decorative insert 50 having horizontal and vertical cross bars 56-58 (see fig. 1).

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Smith (US 3,308,593), Ouellette et al (US 4,970,840), Rachard et al (US 4,060,950), Plimi (US 5,437,133), Salisbury (US 5,267,421), Plummer et al (US 6,718,704), La See (US 5,109,647), Milligan (US 5,226,919), Oshorn (5,048,252) teach decorative insert for doors and windows.
